February 25, 2022

Dear Chair DeFazio and Ranking Member Graves:

I am requesting funding for the Genesee County Water Supply Program – Phase 3 in the Water Resources Development Act of 2022.

- The project sponsor for this project is Genesee County, New York and the project is located in Genesee County, New York.
- The project is located in NY-27.
- The purpose of this project is to build required infrastructure to bring approximately 7.6 million gallons per day of water into Genesee County.
- The project is an appropriate use of taxpayer dollars and is anticipated to have the following benefits: the improved water infrastructure will protect the county against anticipated shortfalls of water to meet demand, it will help replace a water source that is threatened by both low groundwater and contamination from hazardous chemicals – including PFAS/PFOS – which the New York State Department of Environmental Conservation has detected near the existing well field.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Chris Jacobs
Member of Congress
